

Instructions to get an API key from sports website:

1. Sign up for an account here:
<https://developer.sportradar.com/member/register>

2. Verify your email. Log back into website.

A. Get a key:

My API Keys

[Keys](#) [Applications](#) [Manage Account](#)

You don't have any keys yet.

B. Click on Applications

My Apps

[Keys](#) [Applications](#) [Manage Account](#)

Create a New App

You don't have any apps yet.

C. Click on Create a New App

D. **You have to make this stuff up here** - so invent something that sounds real. This company doesn't work with individuals or students, only companies. You can use those web addresses, as they are real. Here's my example:

Register Your New Application

Name of your application (you can change it later) *

Top MLB Games

Web Site

<http://kupresanin.weebly.com>

- Please enter a valid web address.

Please describe what your application will do

Return scores from MLB games to a phone.

Register Callback URL

<http://kupresanin.weebly.com>

E. **Don't submit yet! Scroll down to baseball:**

✓ **Issue a new key for MLB Trial v6**

- **MLB Trial v6**

Key Rate Limits

1	Calls per second
1,000	Calls per month

F. If all was successful, you should see a key in your email. The key is needed to do the API calls for my AVC project.

Your Sportradar US MLB Trial v6 Key
